Latest Customer News

ComCab Birmingham are pleased to announce that we have installed the latest card processing terminals in our entire Black Cab Fleet using Chip & Pin Card Payment processing for all major Credit & Debit Cards.

These terminals allow super fast processing on all Credit & Debit card types from inside our Taxis using the latest Chip & Pin Technology and is a part of our major investment in supporting our customers. This facility provides cash paying customers a flexible range of payment options when travelling in our Black Cab Fleet and keeps us ahead of the competition here in Birmingham.

With a minimum transaction fee of £10.00 and a card handling fee 10% we are competitively placed to offer a far greater range of "In Cab" card processing.

These Payment Terminals allow us develop further payment services in the future.

The Ingenico 3070 mobile card processing terminal is now available in our entire Black Cab Taxi Fleet and processes all major Credit/Debit card types swiftly and securely.

- **Simplicity** Pre-booked or walk on any ComCab Taxi.
- **Security** Latest card handling security protocols used
- **Fast** Using GPS & GSM transactions are handled instantaneously
- **Convenient** No need to carry cash all ComCab Fleet fitted with Terminals
- **Accountability** Both credit/debit card and journey receipts given to customer
